Domain Names

Lumis Multimedia can assist you with deciding on a domain name (which can be different to your business name) and webhosting that best suits your needs. This is important as different criteria apply for the various types of domain space. You must ensure your chosen domain name does not infringe someone else’s rights (i.e. a trademark either in Australia or major overseas markets).

It is easy to register a domain name for email use only if you wish – once you set up an email address, your domain name can follow you anywhere. Please ask us for advise, we will arrange all your domain name and hosting solutions for you.
