Please don't hesitate to contact us with any queries you may have. We know Lumis Multimedia can help you.

Lumis offers a full range of multimedia services including website design, development, hosting, e-commerce facilities, marketing, search engine optimization, as well as Virtual Business Modules like our email marketing, customer relations and content/image management systems.

Lumis can create for you a truly unique and eye-catching design theme based on the approved project brief, offering you maximum corporate online exposure whilst vastly expanding your business's marketing capabilities.

Our attractive designs are not limited to websites; Lumis also provides designs and Corporate Branding for all business brochures and all your advertising needs. Our goal at Lumis is to create products that contain a high level of artistic design whilst offering users complete functionality.

Lumis offers a wide range of small businesses services including:

- Website Design, Development and Search Engine Optimisation
- Complete Web-Hosting and Email Solutions
- Virtual Business Modules for everyday online or in-house tools
- Customer Relations Management software and training
- Content Management Systems maintained by often various contributing authors
- E-Commerce Solutions and Internet Marketing

- Email Marketing, Campaigns and Advertising

Some of our previous work includes:

- E-Commerce solutions and integration into existing sites
- Extensive MySQL Database experience for use with site Business Modules
- Content Management Systems with multiple contributor and editing support
- Email mailing list campaigns and a variety of customised Email Marketing packages
- Customer Relations Management software installation, customisation and staff training
- Photo Galleries with admin control panels, visitor comments, and voting/rating systems
- News Feed manager. Choose from thousands of news feeds from around the world
- Archive and Document manager. Put old articles into cold storage rather than throw them out
- Email-a-friend and Print-format for every story and article
- In-line Text editor similar to your desktop/default text editor for ease of use
- Polls/Surveys - Now put a different one on each page
- Template Choosers. Let users choose their preferred templates and change them in seconds
