

Web Hosting

Lumis Multimedia is proud to announce Lumis Hosting - our web-hosting service offering small businesses reliable servers, superior support, and affordable pricing. Renowned for exceptional customer support and unrivaled in terms of customer satisfaction, Lumis is poised to take the lead in the highly competitive and densely populated world of web hosting providers. Our philosophy is simple: Provide reliable service, superior support, and affordable pricing to businesses and individuals seeking quality shared, reseller, or dedicated web hosting solutions. Lumis Hosting has corporate servers situated in Data Centres in both Australia and the USA, featuring state-of-the-art security, safety, and cooling systems and is second-to-none in the industry.

We are committed to helping its clients succeed in a highly competitive market place, by offering unmatched levels of customer support together with the essential tools that today's successful web hosts require, Lumis should be your #1 choice for exceptional private label web hosting.

As your business grows, you can rest easily knowing that we will be with you every step of the way. Lumis will continue to endeavour to provide our customers with superior network connectivity with minimal required downtime.

All our Australian servers are located in Sydney and are fully managed by professional technical staff. This gives us complete control over all aspects of the system and the ability to respond to issues with minimal delay. We have also been able to leverage on our existing infrastructure which has built into it numerous levels of redundancy and security. All servers run mirrored disks and are backed up daily to a secured backup disk as well as onto a separate, dedicated backup server.

Alternatively, choosing Lumis Hosting in the USA means that your sites will be accessible via a fully meshed and redundant Certified Cisco Network featuring 10 backbone providers. These providers include: UUNet (GigE) Sprint (GigE) Level 3 (GigE) Global Crossing (GigE) Verio (GigE) AT&T (GigE) Time Warner (GigE) Allegiance Telecom (2 x GigE) Broadwing (GigE) AboveNet (2 x GigE).

Located in Dallas, Texas, the Data Center boasts over 35,000 square feet of raised floor

space featuring state-of-the-art security, safety, and cooling systems and is second-to-none in the industry. Data Center Features: (21) 26-ton Data Air AC units Pre-action dry pipe sprinkler system Over 500 smoke detectors in an integrated system Simplex security badge entry/exit on all doors to facility Multiple TXU electrical grids 4800 volts of input power 3 main transfer switches 1-megawatt generator (2000-gallon tank) 1.5-megawatt generator (2200-gallon tank) DataTrax monitoring software for all data center infrastructure Network Infrastructure.
